Course #290.3: Chrome Plating

This one-day course is designed for environmental regulators to better understand this industry and for owner/operators interested in complying with the **NEW** “training” requirements for the *Airborne Toxic Control Measure (ATCM) for Chromium Plating and Chromic Acid Anodizing Facilities*. Classroom discussion will focus on the electroplating process, emission controls, and the inspector’s role in verifying compliance with local air district rules and the state ATCM. To receive a certificate of completion, the regulatory students must attend all day and participate in the afternoon field visit to a chrome plating facility. Owner/Operators are **ONLY** required to attend the afternoon classroom portion in order to receive the “training” certificate required by the ATCM. *(Note: \$50 fee for “Owner/Operators”)*

April 21, 2009
8:30 am – 4:00 pm
(12:30-2:30 pm for “Owner/Operators”)

Bay Area Air Quality Management District
939 Ellis Street
San Francisco, CA 94109
(415) 749-5000
